 APPAREL RESOURCES

FTW AT A GLANCE

FTW is a platform for all companies from the textile value chain to come together and discuss the ever-evolving innovations within the sector's three key areas – apparel manufacturing, technical textiles and fashion retail. This event will offer an opportunity to participants to network with C-level delegates, discuss & debate on future topics like AI, industry 4.0, alternate material, textile and apparel trends, on-demand, sustainability, building a digital twin, transparency and showcase their products, services & technologies to key decision makers from the apparel & fashion industry.

Join for networking, discussions and technology showcases, gaining valuable insights into the evolving fashion tech landscape.

MARKET INSIGHTS

The Global AI Fashion Market

CAGR of 40.8%

Fashion AI market is lucrative as businesses are predominantly looking for AI tools that can help eliminate their supply chain woes. The market is worth US \$ 1.26 billion in 2024 and is expected to grow substantially in future.

Fashion Design and Production Software Market

CAGR of 8.15%

Fashion Design Software is a necessity in post-COVID era as brands and manufacturers are increasingly focusing on integrating 3D in their product development. The whopping market is currently valued at US \$ 3.38 billion worldwide.
