 APPAREL RESOURCES

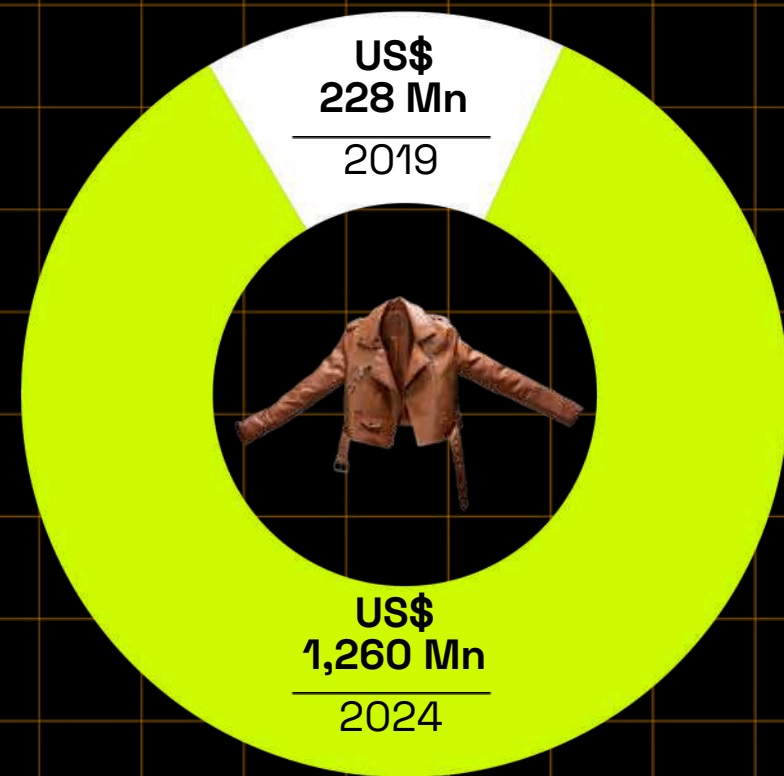

FTW AT A GLANCE

FTW is a platform for all companies from the textile value chain to come together and discuss the ever-evolving innovations within the sector's three key areas – apparel manufacturing, technical textiles and fashion retail. This event will offer an opportunity to participants to network with C-level delegates, discuss and debate on future topics like AI, industry 4.0, alternate material, textile and apparel trends, on-demand, sustainability, building a digital twin, transparency and showcase their products, services and technologies to key decision makers from the apparel and fashion industry.

Join for networking, discussions and technology showcases, gaining valuable insights into the evolving fashion tech landscape.

MARKET INSIGHTS

The Global AI Fashion Market

CAGR of 40.8%

Fashion AI market is lucrative as businesses are predominantly looking for AI tools that can help eliminate their supply chain woes. The market is worth US \$ 1.26 billion in 2024 and is expected to grow substantially in future.

Fashion Design and Production Software Market

CAGR of 8.15%

Fashion Design Software is a necessity in post-COVID era as brands and manufacturers are increasingly focusing on integrating 3D in their product development. The whopping market is currently valued at US \$ 3.38 billion worldwide.

SHOW GLIMPSES

**40+ SPONSOR
& PARTNERS**
